GROUP 3600

This is in response to the Office Action and Notice of Non-Compliant Amendment under 37 CFR 1.121 dated October 9, 2003 in the above-referenced application. As the one month period for response fell on a Sunday, this Supplemental Amendment is timely filed on the next business day, namely November 10, 2003.

The Amendment filed on September 22, 2003 was considered non-compliance under the revised amendment practice, 37 CFR 1.121, for not presenting a complete listing of all of the claims. Pursuant to the instructions in the Notice of Non-Compliant Amendment, only the section of the amendment containing the omission or non-compliant provision is resubmitted; thus the entire "Amendment to the Claims" section is re-presented herein. A very brief Remarks Section is provided herein on page 5 to summarize the resubmitted amendments to the claims. The Examiner is referred to the Remarks Section beginning on page 4 of the Amendment filed on September 22, 2003 for Applicant's substantive remarks responsive to the Office Action dated April 22, 2003.

Please note that upon filing of this application on February 17, 2000, claims 1 to 13 and 22 to 47 were canceled, as such claims were prosecuted in the parent application. Canceled claims are indicated by only the claims number and status, without presenting the text of the

claims as required by 37 CFR 1.121(c)(4). Consecutive claims having the same status of "canceled" are aggregated into one statement as allowed by 37 CFR 1.121(c)(1).

The pending Claims are reflected in the listing of claims which begin on page 3 of this paper.
